PLAN CELEBRATION ON FOURTH OF JULY

Red Cross Chapter Hopes To Raise Funds To Keep Work Going Here

In order to raise sufficient funds to continue work of the local office which is doing such fine work for the ex-service men of Madison county, the local Red Cross chapter is planning a Fourth of July celebration for Richmond.

It is planned to have a band, two good speakers and a ball game during the day, which, of course, is a national holiday. The only charge that will be made during the day will be for admission to the ball game, and it is hoped through this means to raise a sufficient sum to pay the expenses of the local office for sometime to come. It is entirely dependent upon local contributions and every soldier boy knows just how much help Secretary Stone Norman has been in many ways.

The two speakers of the day who have been secured are Hon. Charles I. Dawson, of Frankfort, Attorney General of Kentucky, and now being suggested as the next republican candidate for governor; and George Foley Wyeckoff, of Clark county, a graduate of old Central University, and one of the leading members of the Winchester bar and said to be a fine speaker.

It is expected with good weather a crowd of some five thousand will come to town for the big day.

President Elmer Deatherage, of the Church League, has agreed to arrange a game for the afternoon between the leading teams of the league and a picked team from other nine, thus bringing into play the best talent that has been developed in the local league, and there is a lot of it, too. This game should be a dandy and will undoubtedly draw a large crowd. Tickets will probably be sold in advance by the members of the Red Cross and it is from this sale that the fund must be raised to keep the good work going.

TERRILL OFFERS HELP TO SOLDIER BOYS

Amos Stone Norman of the local Red Cross office, has received a letter from Rodes S. Terrill, secretary to Congressman Ralph Gilbert offering his services to any Madison county soldiers who desire attention given their claims for compensation, etc. The letter, which will be read with interest by the soldier boys, is as follows:

Washington, May 28.
Mr. Stone W. Norman,
Richmond, Ky.

Dear Stone:—
Just a word or two to volunteer my assistance in securing for any discharged soldier from Madison county his compensation, insurance, etc. We meet with splendid success in hurrying along their claims. If you know of anyone who has a claim before the Bureau and wants to learn the status of his claim, have him write Mr. Gilbert giving him number and we will take it up with the Bureau. We want to do everything possible to assist any soldier in every way that we can. Give my regards to all the boys.

Respectfully,
RODES S. TERRILL.

DESPERADO KILLS TWO POLICEMEN

(By Associated Press)
Toledo, O., June 9.—Two policemen were shot to death here today by a man who barricaded himself in a dwelling and exchanged gun fire with the officers who surrounded the building at Huron and Walnut streets. The first plans to dislodge his included use of a machine gun and a fire hose and a squad of policemen armed with shot guns.

The battle, in which hand grenades were used, lasted two hours before the man was killed. He proved to be Thomas Kelley, 48, of Oklahoma. He refused to pay his room rent at a boarding house at 611 Walnut street and threatened the landlady, Mrs. Kelley Key, and her son with a revolver. The police were called and summoned him. He took refuge in the attic of the house and the first officers, Harry Dowell and Harold Mossbrenner, he shot and killed as they approached. A riot call brought all available officers who were met by a fusillade. It was soon seen that Kelly was difficult to dislodge and a machine gun was used to riddle the roof and bombs were employed as well as sulphur candles. The battle raged for two hours with Kelly shooting promiscuously. Finally he ceased firing and when a squad of officers cautiously ascended the stairway he was found dead. Thousands of persons witnessed the duel from vantage points.

SWOPE MAY TRY HARDIN AGAIN

A Daily Register reporter heard in Danville Tuesday that ex-Congressman King Swope of this district, is preparing to be a candidate on the republican ticket for circuit judge against Judge Chas. A. Hardin. The latter has been quite ill at his home in Harrodsburg but is understood to be improving now. Swope is said to entertain the idea that because he defeated Hardin once in the Congressional race, he could do it again for circuit judge. However, notwithstanding the fact that in that race Swope did carry Hardin's judicial district, it is nevertheless true that it is usually reliably democratic, and especially so in years when county tickets are to be elected. For this reason alone, politicians say that Hardin would undoubtedly reverse the decision on Swope in such a contest, and obtain ample revenge for the previous defeat he sustained at the hands of the Boy Congressman. Swope ran over from his law office in Lexington and took in the festivities of Centre College commencement. His parents live in Boyle county.

MOONSHINE CAUSES WHOLESALE KILLING

One Shiner Gets Religion In Elliott County—Tells On Others and Tragedy Results

(By Associated Press)
Louisville, Ky., June 9.—Posses today are hunting James Baker, alleged moonshiner, after the fight near here in which four members of the Sparks' family were killed. Baker accused Sparks of causing his arrest on a charge of moonshining.

Louisville, Ky., June 8.—A father, his daughter, son and nephew were killed and another son was seriously wounded on Wallowhole Creek, Elliott county, yesterday as a sequel to information one of the sons is alleged to have given concerning an alleged moonshine still.

The heart of the girl, Mary Sparks, 14 years old, was pierced by a bullet when she threw herself in front of her brother during the fight, to shield him.

Wes Sparks, Sr., his sons, Dan and Hughie, and the girl were returning home from a neighbor's house when they were attacked by Wes Sparks, Jr., a nephew and son-in-law of Wes Sparks, Sr., and James Barker, it is charged.

Wes Sparks, Jr., and Barker are said to have been moonshining partners of Dan Sparks before the latter became converted to the church six months ago. Information furnished by Sparks has caused court cases which have cost the two alleged former partners more than \$1,000.

Barker was armed with a club and Wes Sparks Jr. with a pistol.

The party which was attacked was not armed, their only weapon being a knife one of the men drew from his pocket. As the pistol of James Barker was leveled at the brother who had informed against the moonshiners the girl threw herself in front of him in time to stop that bullet, though it cost her life.

The next bullet, however, found the brother, Dan Sparks, who was shot in the neck. He lived until last night.

In the meantime, it is alleged Wes Sparks, Jr., with a club had attacked his uncle whose name he bears, his victim was beat senseless with the cudgel. He died before regaining consciousness.

Hughie Sparks, going to the aid of his father, cut his father's opponent so severely that he died a few hours later. Young Wes sustained five deep stab wounds beside many other shallow cuts. I believe he will die.

Barker is charged with the murder of the girl and her brother, and members of the Sparks family and their friends have offered a reward of \$800 for his arrest.

Until six months ago, it is said Dan Sparks, young Wes Sparks, and Barker were partners in a moonshine still on Wallowhole. Business was not bad and all were satisfied.

Dan Sparks became religious, however, and is alleged to have quit the moonshining business. The others were not willing to quit, it is said.

Dan, failing in persuasion, decided on a different course. He informed on the alleged moonshiners.

The still was raided shortly afterward and the two former associates of Dan Sparks were arrested. Expenses and trouble brought about by the fights in the courts are alleged to have caused the battle.

Find 150 Bottles of Stolen Booze

Bardston, Ky., June 9.—The first of several arrests expected in connection with the theft of 75 cases of liquor from the T. W. Samuels distillery, at Deatsville, May 1, was made here last night. Jack Howerton, 23 years old, farmer, was the one taken into custody. Prominent men may be involved in the case, officers intimate. Officers found 105 bottles of the stolen whiskey buried on the farm of J. D. Thompson, on the Bloomfield pike. Fifty-seven cases of the whiskey had been buried on the farm, but was removed later, it was learned by the authorities. It is expected that the entire loot will be recovered in a short time.

REID TRIAL GOES OVER DAY IN KNOX

Military Arrests Three Men In Barbourville, Accused By John Bailey's Father

(By Associated Press)
Barbourville, Ky., June 9.—Bart S. Reid, charged with killing Will Lee, was granted a continuance at his examining trial until tomorrow, in what has been heralded as a renewal of the Bailey-White feud. Lee's funeral was held today and the absence of members of his family made a continuance necessary. Barbourville is quiet.

Barbourville, Ky., June 9.—Three men were arrested by military authorities on warrants charging them with confederating and banding together. The men are James Stivers and William and Charles Hollen. The warrants were sworn to by William Bailey, father of John Bailey, in jail in Louisville, charged with the murder of Beverly White in April.

Bailey charged the three men and five others, endeavored to waylay him near the Knox county line. Those arrested were unarmed, sober and peaceable. They furnished \$1,000 bond apiece to appear at the August term of court.

County Judge Jess D. Tuggle announced today that he will appoint a sheriff within the next two days to fill out the term of Sheriff Reid Black, who resigned before the outbreak.

In the meantime forty guards have been appointed and are acting under the coroner and chief of police in the search for James Lee, wanted for a shooting Saturday night, and in guarding the troops against an outbreak.

The troops are quartered in the court house and are armed with automatic rifles. A detachment is on guard at the jail and another is stationed at the railroad station. All trains are being searched for the fugitive Lee, and precautions are taken to prevent any of the clansmen from getting off here.

Major James K. Dillon, London, who is in charge of guardsmen, said that his men are ready for an emergency should one arise. He declined to comment on what turn he thought affairs might take during the night.

Judge Tuggle said that the people of Knox county resent the intrusion into this territory of the White-Bailey war, which he said was a "clay county feud." He said he would do all in his power to rid his county of the trouble.

Reid blames the trouble on lack of enforcement of the prohibition laws.

"The trouble started last Saturday night when I was returning from a baseball game," he said today.

He said Lee was under the influence of liquor and drew a pistol on the train pointing it at various persons. Lee, he said, got off at Girder and began shooting into the car, one of the bullets striking John Falconer, 19-year-old Barbourville boy.

He then told of his meeting William Lee, the brother, who, he said, threatened his life. Later Reid armed himself and when the two met later he shot Lee.

Indianapolis, Ind., June 9.—The body of Frederick W. Galbraith, Jr., of Cincinnati, national commander of the American Legion, who was killed in an automobile accident here early today, will be removed to Cincinnati for burial. It was announced today. The accident was apparently due to defective steering gear. Galbraith with Milton J. Foreman, of Chicago, chairman of the Legion's Americanism committee, was returning in a machine from the Country Club. They failed to make a turn and the car plunged over an embankment and turned a somersault. All occupants were thrown clear. Galbraith's skull was fractured and he died in a few minutes. The other two men were able to leave the hospital after their injuries were dressed.

Mr. Settle was born in Laurel county at what is known as the Hollie Bush place, February 18, 1840, a son of Marcus D. and Pamela Settle, who moved to this county from Muncomb county, North Carolina. He was married May 12, 1861, to Belinda Bales of Annville, Jackson county, and besides his widow is survived by the following children: Marcus D. Settle, Salt Lake City, Utah; Mrs. H. C. Mr. Settle, before moving to London eleven years ago, made his home in Berea, where he was engaged in the practice of his profession, that of law. He has been in failing health for some time past, being unable to attend to his practice since last summer.

The deceased was a member of the Baptist church for more than 50 years and before coming to London had been a member of the Masonic order 40 years, but on account of his deafness did not keep up his membership after coming to London. His desire most often expressed was that he be permitted to live till his 60th wedding anniversary, which would have been May 12th, this year. Funeral and burial services were conducted at Pine Grove cemetery Wednesday morning.

Mr. Settle besides his wife and children, is survived by five brothers, M. D. Settle, Big Hill; Z. Settle, Marion, O.; Will and Winfield Settle, of Bond, and G. A. Settle, of London, and one sister, Mrs. John McWhorter, of East Bernstadt, Ky., most of whom, with a large number of other relatives, were here for the funeral.

GERMANS SPY ON RED MOVES

Everybody in the Central Section of Communist Agitation Is Closely Watched.

COMMUNISTS ARE IN MAJORITY

Police Explain That Their Palpable Nervousness Arises From the Fact That the Communists Outnumber Them Ten to One.

Halle, Germany.—The security police organization of middle Germany, which has been the scene of widespread Bolshevik agitation and frequent clashes between communists and government forces, has developed a system of espionage which enables it to record the daily activities of virtually every citizen and to trace minutely the movements of strangers.

The latter, however, without exception, are treated as suspicious characters until the authorities are convinced their business is legitimate and their intentions honorable. Even with the most genuine official documents, the police are not easily persuaded that a stranger, and particularly a foreigner, is not pondering deep plots and dark deeds against the government.

In the latest rioting here and in other central German cities, when nearly 4,000 communists were arrested, innocent circumstances often assumed a sinister aspect in the minds of the police.

Correspondent Twice Arrested. The Associated Press correspondent, who had been many times examined by minor officials and frequently searched, was twice formally arrested and subjected to cross-examination by the superintendent of the district police forces.

"We know all about you," said this man when the correspondent was taken before him, and from a card he read the record of the American's movements for the three days he had been in the district. He knew the contents of telegrams which had been sent in English, had record of conversations held with German officials, communists, hotel waiters, porters, policemen on the streets and chauffeurs. He was, however, in doubt about the correspondent's opinions regarding communism and wanted to know about a certain interview with leaders of communists who were fighting near Bielefeld.

"You made a speech to them and appeared to have been favorably received," he said. "What was your purpose and what did you say?"

Communists in Majority. Assured there had been no speech-making, the superintendent summoned the chauffeur, who had been employed by the correspondent in an effort to reach the communists. The official finally was convinced the visit was only for the purpose of securing information and that no influence, except an American passport as identification, was employed over the rebels.

He then dismissed the correspondent, who, however, next day was again arrested as he entered the local police headquarters. There followed another examination which ended only when the American threatened to report the treatment he had received to the proper government official in Berlin.

The attitude of the police and their very palpable nervousness arose, they explained, out of the fact that the communists outnumber them ten to one.

Woman's Fourth Husband Cured Her of Matrimony

"I'm through," sighed Mrs. Elizabeth Miller as she left Judge Baldwin's courtroom in Chicago, where she had just been freed from her husband, William Miller, whom she charged with stealing her diamonds and with having 12 other wives.

"I'm through," she repeated. "I've been married four times and have learned my lesson. My last husband opened my eyes."

Chicago, June 8.—Team golf popular in England but almost unknown on most American links, is becoming popular on the Chicago courses. Each player on a team carries a different club, one doing all the driving, another all the putting, and so on. Only one ball is used by each team and with each player using only one club at which he is more adept, remarkable scores are being made.

We watch the markets closely and mark our goods according to the market regardless of cost.

We are in position to give the farmer who is in the market for implements, fence, roofing, and building material a very low price.

The party who is thinking of building, don't fail to see us for builders hardware.

And the housewife, also the housewife to be, (as this is the month of brides) don't fail to come and see us—look over our line of Queensware, Silverware, Oil Stoves, Ranges and Refrigerators.

Special attention will be given the new bride and groom during the month of June.

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poisons Stings to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if two bottles of Allenbur's, the sure conqueror of rheumatism, does not stop all agony, reduce swelling joints and so away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenbur has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenbur, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenbur decisively conquers the worst of all diseases and he guarantees it in every instance.

French is hostess and leader. The piano numbers were given by Misses Bessie Estell Stone, Evelyn Gmelchigian, Nettie Kate Evans and Mrs. Walter Q. Park. This was the closing meeting of the year. The club will resume their work in September.

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You haven't consent to show these few lines to anybody."—Mrs. C. W. BEZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives. Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

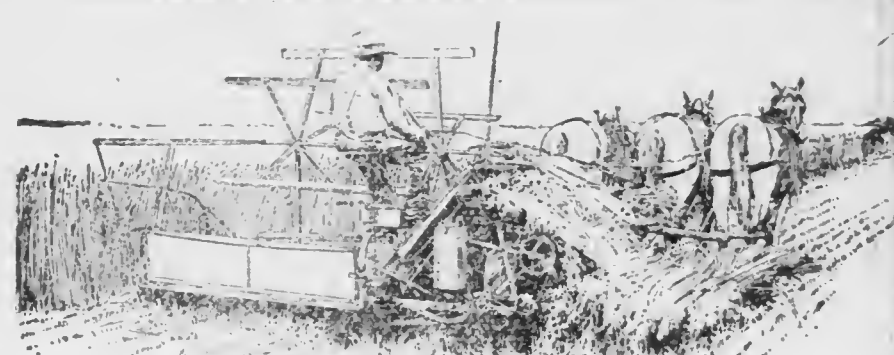

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

What Will the Harvest Be?

THERE is no better time than now to start figuring on the best machine to cut and bind your grain, mow and rake your hay. Be sure you are safe.

The McCormick Improved Binder, like all other implements bearing the name "McCormick," has earned the confidence of farming communities by its consistent performance. Every change or addition made has back of it the practical experience of men who know what it required to do clean, thorough work at low cost.

McCormick Haying Machines are equally popular. The same high standard so apparent in the binder has been maintained in haying machines.

Every unit of the McCormick line is built to answer some practical farming purpose, to save time, labor, and money. It is this fact that has given McCormick machines such a distinct leadership in sections where successful farming is the rule, not the exception.

Call and see these splendid harvesting and haying machines. Inspect also other units of the McCormick line. We will be glad to discuss fully with you your individual needs, and to show you why and how there is always a McCormick machine that you can use with profit.

Sophie Gets Cabinet to Raise \$75,000 to Help Destitute From Caucasus.

THEIR CONDITION DESPERATE

Twenty Thousand Huddled Together in Barracks Not Intended to Hold Half That Number—Disease Takes 1,000 in Month.

Saloniki.—Queen Sophie of Greece, head of the Greek Red Cross, recently summoned members of the Greek cabinet to the palace and demanded that the government take steps to prevent the distress of 20,000 Greek refugees from the Caucasus, now in barracks on the hills of Saloniki, near Saloniki, from becoming a national disgrace.

In consequence of her action 1,000,000 drachmas (equivalent to about \$75,000 at present rates of exchange) were collected for the benefit of the refugees and 15 additional physicians were sent to Saloniki.

The miserable condition of the refugees had been reported to the queen by Colonel Olds, the American Red Cross commissioner for Europe, who inspected their camp. Queen Sophie then sent Dr. Theophanos Aggelopoulos, an eminent sanitary expert, as her personal representative to take charge of the camp. He brought a corps of ten physicians. Until that time only one physician had administered to the thousands ill among the refugees. There had been no one to look after sanitation.

Americans Send Aid.

The American Red Cross has sent to Saloniki Col. Henry A. Shaw of the United States army medical corps, with a party of physicians and nurses to aid the Greek government in the care of the refugees. Colonel Shaw plans to gather 1,000 of the orphans in old French barracks, several miles from the present camp, where the children will be given medical attention. While food will be furnished by the Greek government. The expenses of this work will be borne by the government.

Miss Lillian Spellman, a Boston nurse, is conducting a Red Cross dispensary at the camp, where she distributes cans of milk and soon will distribute clothing to the small children.

Many of the refugees were lured by promise of rich lands in Macedonia, but the majority fled from the Caucasus, before the advances of the Bolsheviks and the Turkish nationals under Kemal Pasha.

1,000 Die in Month.

The 20,000 are huddled together in barracks which were not intended to hold half that number. A Red Cross inspector who visited the camp reports that disease such as typhus, dysentery and influenza is prevalent, and that more than 1,000 of the refugees died within a month.

The Greek governor, General Zazizanos, is in despair, for he expects 15,000 additional refugees to arrive soon and says that there are more than 50,000 others trying to reach Greece. The fund appropriated by the Greek government to feed, clothe and provide medical attention will be exhausted within a month, say the relief agents.

Divorce Asked by Pair Who Clashed on Meals

Mansfield, O.—Henry Lobell and his wife, Clara Lobell, have proved that a marriage between a man with a practical mind and a woman with a soul full of poetry is not an ideal match. "Senseless jingles," Lobell called his wife's poems. He said he had to pay for having a volume of his wife's poems printed. "I got tired coming home to a can of sardines. I like a cooked meal. I had to cook 90 per cent of my meals." They are seeking a divorce.

Several times lately the doctor has been obliged to stop somewhere down the street because some one has discovered the pet serenely holding on, despite the smooth surface of the top.

Bullet-Proof Man Tried Vainly to Kill Himself

After firing two .22-caliber bullets into his forehead and two more into his body, Walter Stewart, a farmer of Hartland Hollow, Conn., decided that the suicide route was a hard road. He was walking about the house, smoking a pipe, when the doctor arrived. Asked why he had tried to end his life, he replied that he was discouraged. His failure to kill himself made him more discouraged, but he declared he would never try the gun route again.

CLARENCE WOODS IS GIVEN A CAR

Former Mayor of Richmond is
Shown Appreciation of His
Work in Florida

The Tampa, Fla., Tribune recently printed the following editorial which will be of much interest to the many friends here of ex-Mayor Clarence E. Woods, now a prominent and distinguished citizen of Florida:

The wise man of the past said: "A friend in need is a friend indeed." The most immediate proof we have seen of this is in the recent presentation of an automobile to Clarence E. Woods, field agent for the Montverde Industrial school, by General W. B. Haldeman, of Louisville, and Naples-on-the-Gulf, and others. While in this state General Haldeman became much impressed with the need for the work the Montverde school is doing, and the embarrassment attending the work of its field agent through inability to get over a wider territorial scope than a foot, or the courtesies of friendly auto owners, would permit. Then, too, having a personal interest in and a deep feeling of friendship for Clarence Woods, personally a fellow Kentuckian, he expressed the desire to do something that would be a benefit to both and at the same time show his appreciation of the personal work of his friend, so he sent him a check for \$500 to purchase a Ford automobile.

As soon as other friends of the institution and Clarence Woods knew of the check's arrival they declared they would have a hand in it too, so they supplemented the \$500 check with \$469.70 more and together they bought him a Ford coupe fully equipped, brand new and delivered into his hands at Leesburg. Those making the gift are: Gen. W. B. Haldeman, Col. Robert W. Bingham, C. C. Wallace, Esq., Judge John Cheaut and R. C. Stockton, of Kentucky, and Dr. F. A. Reed, Englis, Florida.

Mr. Woods has done a good work for the Montverde school, it being recalled that he resigned from the position of U. S. explosives inspector for Florida to

which he had been appointed by President Wilson, that he might devote his time and energies to Montverde. That his personal sacrifice and personal interest in the school attracted the attention and excited the admiration of General Haldeman for the man is evidenced by a paragraph in the letter transmitting the generous check to Mr. Woods, saying:

"So that there may be no future complications I state here very explicitly that the auto you may purchase with the \$500 I send you, is to be used by you in your work for the Montverde school and that when your connection with that school ceases—if it should cease, that the auto is your personal property."

The Tribune congratulates Mr. Woods on the friends he has made both for the Montverde industrial school and those he has "grappled to himself with hooks of steel."

RAILWAY INQUIRY IN WASHINGTON

Excessive Labor Costs and Working Conditions Chief Causes of Trouble.

NO CONTROL OVER EXPENSE

Prices and Wages Fixed by Government Leave Little Scope for Managements.

Washington, D. C.—In testifying before the Senate Committee on Interstate Commerce in the general investigation into the railroad situation, witnesses for the railroads contended that:

(1) The costs of operation are abnormal, owing chiefly to wage scales established by the government which exceed wages paid for similar work in other industries, and to wasteful labor costs, often for work not done, enforced upon the railroads by the so-called "National Agreements."

(2) That 97½ cents out of every dollar of operating expenses in 1920 were at prices fixed directly by the government, or by general market conditions and over which the railroad managements had no control.

(3) That the general business depression was not due to the high freight rates, but to the lack of buying both here and abroad.

One of the most striking facts brought out in the testimony presented by the first witness, Julius Kruttschnitt, chairman of the board of directors of the Southern Pacific, was the following, in explanation of the chief reason for the increase in operating expenses since 1916:

"The labor bill of the railroads in 1916 (which was before the Adamson law took effect) stood at \$1,408,570,391. In 1920 it was \$3,338,216,551, an increase of \$2,229,646,160."

"The increase by years since 1916 has been as follows:

Increase in 1917.....	\$270,905,743
Increase in 1918.....	674,331,209
Increase in 1919.....	223,315,681
Increase in 1920.....	855,037,919
or an aggregate increase since 1916 of.....	\$2,229,646,160

Exhibits were placed before the committee showing that for the railroads of the whole country, increased expenses in 1920 over 1919 were as follows:

Actual expenses for 1920, \$6,163,135,341
Actual expenses for 1919, 4,667,774,131

Inc. for 1920 over 1919, \$1,495,361,210

Mr. Kruttschnitt, in showing how little control the railroads had over necessary expenditures, said:

"Sixty-four cents out of every dollar of operating expenses were, in 1920, paid out to labor, and the wages of labor are fixed by the government."

"Fifteen cents out of every dollar of operating expenses was paid for materials and supplies at prices fixed by the government."

"Three and one-half cents out of every dollar was paid for other expenses incurred by the government in the first two months of 1920."

"A total, therefore, of 82½ cents out of every dollar of operating expenses for 1920 was paid out at prices directly fixed by the government."

"The remainder, up to 97½ cents, was for materials and supplies, purchased at prices fixed by general market conditions and beyond the power of the railroads to control."

To illustrate how labor costs were inflated by the "National Agreements" entered into during federal control, the following examples were cited:

1. The Pere Marquette Railway was compelled to pay \$3,551 in back pay to four employees because their titles under these agreements were changed by a decision of the Director General, while the nature of their duties and the volume of their work remained the same.

2. A car repairer on the Virginian Railway was paid \$1,000 for work he never did. He was laid off with other employees because there was no work for him to do. When he became entitled under his "seniority rights" to be re-employed, he received back pay and overtime.

3. The Shop Crafts Agreement provides that when employees are required to check in and out at their own time they will be paid for one hour extra at the close of each week, by which time they may have worked. This rule in the first six months of 1920 cost the railways \$2,500,000, or at rate of \$12,500,000 a year.

4. On the Chesapeake & Ohio Railroad piecework car repairs decreased 11.4 per cent and albrake repairs 23.1 per cent in efficiency under a guarantee of a fixed minimum rate per hour.

5. On the abolition of piece work on the Union Pacific Railroad in the wheel shop at Omaha, Neb., the time required for the same work was increased 31.3 per cent and the output was cut down 21 per cent; and in a coach-drawing yard at Denver the time required was increased 23.8 per cent and the output decreased 28 per cent.

6. Southern Pacific employees, whose sole duty was to keep watch on stationary engines and to stop the engine in case anything went wrong, were reclassified by Director General as "electrical workers." One man on the Salt Lake division being given back pay of \$2,381, another \$2,634, another \$2,000, another \$2,003, and six others amounts varying from \$1,509 to \$1,900.

Under the present classification rules of the shop crafts, in order to change a boiler in the front end of a locomotive it is necessary to call a boiler maker and his helper to open the door, because that is boiler makers' work; to call a pipefitter and his helper to remove the boiler pipe, because that is pipefitters' work; and call a machinist and his helper to remove the tip, because that is machinists' work; also for the same reason to be employed for putting in the new tip.

Questioned by Senator Poinsett, Mr. Kruttschnitt stated that these instances might be increased indefinitely and were characteristic of railroads of the country, as a result of the "Agreements" left over from federal control.
